WELCOME

To the first edition of What's Happening at Wecon Systems "WHAWS" newsletter for the year 2014. The early winter season has provided us with challenges to keep our shop technicians busy while our manpower commitments particularly in the field have kept us busy. Due to year end commitments, our field technicians have kept busy throughout much of the Christmas season. We thank them for their efforts. On a positive note, our customers are extremely happy with the progress of these jobs. We hope you had a great Christmas break and are ready to begin another successful year.

New business opportunities have grown and have continued to develop this past year including a couple of larger projects that are scheduled to begin installation early in the New Year. We welcome all of our new business associates. To all of our customers and suppliers, thank you for supporting our requirements and allowing us to satisfy your material handling needs. If you have any questions, are interested in any of our products or require a material handling solution please don't hesitate to contact any of our professional sales associates. Be sure to check our website on a regular basis to view our used options and monthly specials and check the news & events tab to keep updated on what's happening at Wecon Systems.

Our Annual Christmas Celebration

This year's celebration took place at the Culinaria Restaurant at the historic Elliott House here in Mississauga. The Culinaria Restaurant provides fine dining experience in a casual atmosphere. The ambiance is warm and inviting, providing patrons with an environment that is both charming and appealing. For our pleasure they offered and put together a customized menu specifically for our company offering various starter dishes and several main meal choices. The serving staff was more than accommodating to our large group and especially to those who were delayed satisfying last minute customer commitments. We were seated in a spacious room away from other patrons in the restaurant allowing for an uninterrupted and private celebration. If you are looking for somewhere to hold your next corporate event, please give them a call.

New Field Technician and Returning Sales Associate

Zach Budge has now joined us and has become the newest member of our Installation team. He brings a youthful enthusiasm to our team. He is anxious, ambitious and eager to acquire the experience and knowledge necessary to succeed in the Material Handling Field. Gary Niklas has rejoined our team of Sales Professionals and looks forward to renewing his former business ties and generating new leads. Please join us in welcoming Zach and the return of Gary to the company.

If you have an installation, service or sales inquiry, please give any of our experienced and qualified installation, service or sales staff professionals a call and they would be happy to help answer your questions. Wecon Systems is always available to assist you when it comes to answering questions concerning your conveyor or material handling inquiries. No matter the size or nature of the project you may be considering, contact any of our specialists to ensure all phases of the job are covered. They can be reached at Wecon Systems by calling (905) 624-6499 or alternately they can be contacted via e-mail through:

info@weconsystems.com
service@weconsystems.com
sales@weconsystems.com.

Our team of professionals generates "Guaranteed Results".

On Going and Completed Projects

- We most recently completed modifications to two vertical lifts at a major retail outlet in downtown Toronto. Our technicians had to work around the customer's regular business hours to be as non-disruptive and to minimize delays in getting the work and upgrades completed.
- Our technicians have been in Windsor completing the addition of an expansion to the local postal facilities.
- Installation is scheduled to begin at a local retail logistics distribution center. Upgrades to augment the existing material handling system are being implemented. This work was awarded to Wecon based on past performances at this facility.

On Going and Completed Projects—Continued

- Wecon has added an additional avenue to its installation activities. We have been contracted to provide the installation services for two car stacking systems in Metropolitan Toronto. Installation is scheduled to commence early in the New Year.
- We are in the process of designing, and manufacturing equipment for installation modifications to the automatic trash handling system at a major printing facility in Vaughan. This is a "run on demand" system that transports rejected print material to the compactors.
- Our sales staff and distributors remain busy quoting and continue to pursue new business opportunities. They are always available to assist and answer any customer inquiry. They can be reached at Wecon Systems by calling (905) 624-6499 or alternately they can be contacted via e-mail at:

New Products

We are proud to be associated with Park & Stack Corporation. We have been contracted by them to install two mechanical parking systems in Metropolitan Toronto. Park & Stack Corporation are the Canadian agents for SpaceSaver Parking Corporation who are the North American distributors for the parking systems. They offer and provide a cost-effective and reliable solution to your parking problem.
