WELCOME

To the first edition of What's Happening at Wecon Systems "WHAWS" newsletter for the year 2020. The first day of winter (aka the winter solstice) marking the shortest day and longest night of the year in the northern hemisphere has come and gone. If you are like most of us, we are looking forward to the extended periods of sunlight in each passing day. In December we were treated to a couple of "early" snow falls which eventually regressed providing us with some amicable weather conditions much to the liking of most people during this particularly busy time of the year. The "white" Christmas so many of us wished for unfortunately didn't materialize but that accommodated those who needed to travel and visit. Due to where the holidays fell this year, most of us were able to enjoy a longer than usual break allowing us to catch up with family and friends during this normally busy season. For those who were called upon during this time period we thank them for their efforts. These efforts did not go unnoticed and were appreciated by our customers who were able to minimize down time during this particularly demanding time of the year. By the time you are reading this, the kids have returned to school and most of us are back to our regular routines. We hope you had a great Christmas break and wish everyone a healthy and prosperous New Year. We look forward to beginning another successful year.

Our Annual Christmas Celebration

17 Steakhouse and Bar in Mississauga hosted our annual Christmas celebration. We have utilized them in the past and continue to go back as they provide an exceptional dining experience for those special occasions. They provide an upscale dining experience and welcoming environment that specializes in prime cuts of beef in addition to offering a variety of alternate choices to satisfy most appetites. The ambiance is congenial and inviting, providing patrons with surroundings that are both charming and appealing. We were seated in a private room that accommodated our group allowing for an uninterrupted and private celebration. The serving staff were more than accommodating. For our pleasure they put together an assortment of various starter dishes for our enjoyment prior to bringing out the main meals. If you are looking for somewhere to hold your next corporate event or just that special occasion, please give them a call.

On Going and Completed Projects

- The mechanical and electrical installation of the order fulfilment system for a new distribution centre in Mississauga for an iconic Canadian clothing retailer has been completed. Wecon played a major role in implementing the exciting new technology associated with the project and oversaw all phases of the job. Wecon has been contracted to provide service and scheduled maintenance coverage to provide continued and trouble free operation for these facilities.
- The mechanical installation of the conveyor system at a major grocery distributor in Vaughan is drawing to a close. Wecon provided the labor for the project on behalf of TGW Mechanics GMBH a major business partner to Wecon.
- Wecon has been awarded the racking and subsequent conveyor installation for an automated in-store picking system for e-comm at an express service store in the GTA. Wecon will be responsible for coordinating all mechanical aspects for this inaugural job.
- Scheduled / preventative maintenance continues to be an integral portion of our scope of work. We have several customers who realize the benefit of this service to prevent down time and have contracted us to complete this function as part of a regular routine.
- Our sales staff and distributors remain busy quoting and continue to pursue new business opportunities. They are always available to assist and answer any customer inquiry. They can be reached at Wecon Systems by calling (905) 624-6499 or alternately they can be contacted via e-mail at: info@weconsystems.com; sales@weconsystems.com; or service@weconsystems.com.

Milestones

Look who is "20". We are proud to announce the 20th anniversary of Terry Capraro at Wecon Systems. Terry celebrated this noteworthy occasion on September 9th, 2019. Terry has been instrumental in representing Wecon and typically works behind the scenes as a liaison and a voice between us and the customer. Terry is our Office Manager and is responsible for taking an active role in our office and payables activities and always lends a hand where needed. Please take a moment to congratulate Terry on reaching this significant achievement. If you need to contact Terry she can be reached at Wecon Systems by calling (905) 624-6499, on her cell phone (905) 520-9555 or alternately via e-mail at: tcapraro@weconsystems.com.

New Award

This past November, Eric Trefz from TGW Living Logistics presented us with our first Silver Sales Award. This along with the many Bronze Sales Awards we have received in previous years, goes to further augment our strength and commitments to our major business partner TGW Systems Inc. Congratulation to everyone.

New Products

Meet OTTO. OTTO is a self-driving vehicle designed to increase throughput and operational costs in warehouses and industrial centers. OTTO is an autonomous vehicle and not an AGV. We are fortunate to be partnered with OTTO Motors and included as part of the inception / launch / release of this exciting new product. For information on this product please contact Wecon Systems @ (905) 624-6499 and inquire through our Sales Department or alternately via e-mail at: sales@weconsystems.com.
